**Smart Catalog to be Showcased at Customer Conference**

***Smart Catalog by Endeavor Commerce will be showcased at Sage Software's annual customer conference.***

DALLAS, TX October 25, 2005 – Endeavor Commerce, the leading quote-to-order solution provider for mid-size enterprises, announces its commitment to Sage Software and their customers by presenting and exhibiting Smart Catalog at Sage Software's annual customer conference, Sage Summit. Sage Summit will be held November 2-5 in San Diego, CA.

Smart Catalog from Endeavor Commerce automates the quote-to-order process for manufacturing, service, technology and retail companies around the world. Smart Catalog has been instrumental in helping many companies improve profits through expanded revenue channels, real-time quotes and error-free orders. Many of Endeavor Commerce's customers own Sage CRM SalesLogix, Sage Software's mid-market leading CRM solution. Smart Catalog is tightly integrated with Sage CRM SalesLogix ensuring opportunities are tracked and forecasts are accurate.

"We are committed to helping companies increase revenue and profits by making the quote-to-order process fast, easy and 100% accurate," said Sean Myers, CEO of Endeavor Commerce. "We look forward to the opportunity to talk to customers at Sage Summit and explore ways we can help them be more successful with a proven, affordable solution that yields significant ROI."

Smart Catalog will be showcased at booth 1313 in the exhibition hall. In addition, Smart Catalog will be featured in a break-out session that focuses on software solutions that increase the value of customer's software investment.
