Prescription.MD announces the launch of its new online pharmacy <http://www.prescription.md>. The online pharmacy offers top selling prescription drugs such Viagra, Cialis, Levitra, Propecia, Valtrex and Zyban

Prescription.MD is a US based online pharmacy that works exclusively US-licensed pharmacists and physicians and sells only FDA-approved prescription medications. The online pharmacy is a friendly and easy-to-use site, where visitors can view actual images of the prescription drugs and find their medication's information. Prescription.MD is also pleased to offer customers the possibility to consult a pharmacist by e-mail.

The online pharmacy started serving U.S. consumers almost two years ago and now fills about 100 online prescriptions a day for U.S. consumers.

Prescription.MD is confident of its rock bottom prices and reliable service and will continue to serve its growing circle of loyal costumers with great dedication.

Prescription.MD is fully compliant with the FDA, and all prescriptions are approved by a licensed US physician. Additionally, to insure the quality and authenticity of each medication, Prescription.MD only purchases directly from the US manufacturer. What is more, Prescription.MD guarantees all medications are the actual prescription medication from their US manufacturer. The manufacturers are as follows:

Viagra ➤ Pfizer

Cialis ➤ Eli Lilly/ICOS

Levitra ➤ Bayer/GlaxoSmithkline

Prescription.MD is a safe, secure, private, and convenient way to get the online prescriptions you need. As a special incentive, after a customer places their first online order, Prescription.MD will take \$20 off the retail price for all refills.
